Economic History and Economics

For better or worse, however, economics has gone down a different path, not the one I have in mind One consequence, not the most important one, but the one that matters for this discussion, is that economic theory learns nothing from economic history, and economic history is as much corrupted as enriched by economic theory I will come to

Why Economics Matters for Endangered Species Protection

Economics matters because, in a world of scarce resources, the opportunity cost of species protection-in terms of the reduced resources for other worthwhile causes-must be taken into account in decision making Scarcity is a reality The time, labor, and capital available to us are all scarce resources and must be spread over many human desires
